STX
LDN

Hello

/

Who We Are

Stacks Advocates, Are Bitcoin Advocates

Our group is made up of Bitcoiners, who believe in the mass adoption and original vision of Bitcoin, with an ambition to build dApps, NFT's and DeFi applications utilising the unique decentralization and security that only the Bitcoin Blockchain provides. We believe this is capability is currently best achieved via the Stacks blockchain.

STX:LDN

STX LDN is a Stacks Blockchain advocates meetup group organising Bitcoin & Stacks educational events in and around London, UK.

/

what we Do

Discover Web3 applications
secured by Bitcoin

Hybrid Event Organisation

STX:LDN is focused on creating human connections among Bitcoiners, crypto enthusiasts and those building, working, investing and interested in Bitcoin, Cryptocurrencies, Blockchain, NFT's and Web 3.0.

We aim to achieve this by facilitating multiple types of event experiences, from local meetups to full blown festivals! This includes many hybrid events, mixing event styles together to provide maximum experience, exposure and enjoyment for all attendees.

/
Our Mission

Bitcoin Education

The one thing that drew our team to the Stacks blockchain and community, is it's anchoring to Bitcoin and recognition Bitcoin's importance.

For STX:LDN and the Stacks community, Bitcoin education is foremost and key to understanding of Blockchain and Cryptocurrency.

Stacks Education

The Stacks blockchain does not seek to be a competitor to Bitcoin, but instead an extension to the Bitcoin ecosystem.

Stacks gives greater development access to Bitcoin security features, by enabling Smart Contracts secured by Bitcoin block validation.

Workshops

Learn about the Stacks ecosystem and discover projects building on Bitcoin via Stacks. DeFi, GameFi, NFT's and more...

Experience presentations of the latest Stacks applications and work with others developing in the ecosystem via networking and hackathons.

Networking

Meet people from all over the globe who are pushing the message of Bitcoin forward via Bitcoin centric programmes and companies.

Join the Stacks community and connect with other like-minded individuals interested in and building on Bitcoin.

/

"The only overlap is to make it so miners can search for proof-of-work for both networks simultaneously." - **Satoshi Nakamoto on other Blockchains (BitDNS)**

Built on Stacks Ӿ

Building on Bitcoin.

Stacks is a Layer 1 solution, that harnesses the power and security of Bitcoin on-chain settlement finality and its Proof-Of-Work algorithm for smart contracts and dApps.

Stacks consensus is achieved by a mechanism known as Proof-Of-Transfer (POX), which recycles Bitcoins Proof-Of-Work and is validated by blocks on the Bitcoin blockchain.

/

Hiro Wallet   Ryder.id   Megapont Apes

Examples of successful projects built on Stacks

Hiro Wallet

Hiro is the native wallet of the Stacks blockchain and is available in both desktop and browser extension formats.

Hiro is extremely robust and popular as Stacks' native wallet, with over 70K downloads on Google's browser extension store.

Ryder.id

Ryder,id is a unique wearables device powered by the Stacks blockchain, with unique features that have not yet been seen in the crypto space.

The devices are NFT's themselves, which allow interaction with other types of NFT and make use of wireless communication technologies.

Megapont Apes

Stacks' leading NFT project, by volume and activity. Megapont Apes has built one of the most interesting NFT communities in the space. Currently the most coveted Stacks NFT's.

Expanding the Mega Pont universe across multiple blockchains, Mega Kongs were recently dropped on OpenSea, charting at 28th in the first 24 hours!

STX:LDN is the #1 UK based
Stacks community

Join Us

STX:LDN Membership

Registering as an STX:LDN member gives you access to member updates and future membership features and rewards.

Members benefit in principal by having their voices heard and amplified within the STX:LDN and wider Stacks community.

/

Get Involved

STX:LDN

We're always looking to collaborate with Bitcoin and Stacks related projects or advocates. If you want to get involved as a speaker exhibitor, sponsor, or volunteer, get in touch with our team to discuss your ideas.

Where To Begin

Connect With Us

You can always connect with us by following our STX:LDN profiles on the sites to the right of this page. Links are clickable!
